

Win a FREE Aerial Survey

This month, Sky Revolutions is giving you the chance to Win a FREE Aerial Survey. All you need to do is [visit our website](#) and complete the contact form or click on the link below.

Take this opportunity to trial aerial inspection with no impact on your current budget. If you haven't considered aerial inspections before or you're ready to make the transition from manual surveys to drone surveys, enter your details and you could be on the way to exploring the benefits for your business.

The offer entitles the winner to a free aerial survey of up to ten minute's flying time with our state-of-the-art Falcon 8 drones. The winner will receive a set of detailed high definition aerial photographs and a summary condition report. Please see [full terms and conditions](#) on our website.

Simply [visit our website](#), complete the quick contact form and we'll automatically include you in the prize draw to win a free aerial survey.

Ends.

Notes for Editors

Sky Revolutions Ltd.

Sky Revolutions is one of the UK's most authoritative voices in aerial imaging, surveying, and aerial surveying. The company offers exceptional quality multi-sector time lapse, aerial imaging, and surveying services to private and public sector institutions, Europe-wide.

Sky Revolutions is a dedicated team of professionals with more than 20 years' experience in construction surveying. Valued for their specialist surveying skills, Sky Revolutions offers effective advice and data interpretation as well as filming, mapping and CAD services.

Sky Revolutions is known for leading the way with aerial imaging and remains the only organisation using 100' masts to provide a free standing, at-height image solution for large construction sites. Highly qualified and accredited, its UAS (Unmanned Aircraft Systems) expertise helps customers access complex and often hazardous environments, see and record the condition of assets from a birds' eye view, and make informed assessments quickly, safely and cost-effectively. The company uses some of the most sophisticated drones in the market to capture ultra-high definition images at a fraction of the cost of traditional aircraft surveys and with fewer risks than platform or scaffold use.

Sky Revolutions was one of the first UK organisations to realise the benefits of drones in surveying. Drones or UAVs (Unmanned Aerial Vehicles) offer significant advantages in surveying and high-level inspection.
